RE: Minor Modification No. 1
Typographical Error & Additional Test
EPA UIC Permit No. WY21098-07393
Tribal C-13 Well
Fremont County, WY

Dear Mr. Meabon:

This letter transmits a Minor Modification for the Environmental Protection Agency Region 8 (EPA), Underground Injection Control (UIC) Program Permit No. WY21098-07393. This UIC Permit authorizes the construction and operation of the Tribal C-13 well, a Class II-Enhanced Recovery injection well. The Tribal C-13 well is located 940 ft from the south line, 320 ft from the east line, SESE, Section 30, Township 4 North, Range 1 West, Steamboat Butte Field, Fremont County, Wyoming.

Tribal C-13 was a production well in Fremont County, Wyoming. Marathon Oil Company (Marathon) plans to convert this well to support an ongoing secondary recovery project in the Phosphoria and Tensleep Formations. The required demonstration of financial responsibility for the Tribal C-13 well was approved by EPA on February 8, 2008.

Pursuant to the Code of Federal Regulations Title 40 (40 CFR) Section 144.41(a) and (b), the EPA is modifying this Permit to correct a typographical error in Appendix A and incorporate a Step Rate Test requirement in Appendix B. Appendix A has been amended to replace a reference to the Nugget Formation with the identification of the Phosphoria and Tensleep Formations, as the proposed injection zones. A copy of the revised appendices is enclosed.

Please be aware that it is the responsibility of Marathon Oil Company, the permittee, to be aware of and to comply with all requirements of the Permit. Please direct all future reporting and regulatory compliance correspondence regarding this UIC Permit and injection well to:

Mr. Nathan Wiser
UIC Compliance and Enforcement, 8ENF-UFO
